

## TI-1008GP-2GS

10-port Unmanaged Industrial Ethernet PoE Switch

*Temperature hardened and increased surge protection* 

Overview

Teroline's TI-1008GP-2GS is an unmanaged Industrial Ethernet PoE Switch with 8 x 10/100/1000Base-T 802.3af/at PoE ports and 2 x 1000Base-X SFP ports. It is featured with port isolation, 250m long-range transmission, QoS (1-2 ports) and PoE watchdog functions, which can be easily configured by a DIP switch on the top panel.

TI-1008GP-2GS is an ideal and cost-effective solution for industrial automation applications. It's designed with input 44-57VDC, redundant inputs with polarity reverse and over-voltage protection, enclosed in a robust IP40 fan-less housing with DIN-rail installation clamp to support extended operation temperature from -40°C to 75°C as well as enhanced EMI/EMC capability. It is easy and fast to deploy in manufacturing facilities, transportation, oil & gas, chemistry, video surveillance and other various industry automation networks in which the operation condition is harsh and electromagnetic compatibility must be fulfilled.

#### Key features

- > 2 x 1000Base-X SFP fiber interfaces and 8 x 10/100/1000BASE-T RJ45 PoE LAN interfaces with auto MDI/MDI-X function
- DIP-switch configuration for Port Isolation, 250m long-range transmission, QoS and PoE watchdog functions
- > Up to 10K Bytes Jumbo Frame support
- > IP40 protection level, Fan-less design, and DIN-rail mounted
- > 4KV surge protection; ESD: 8KV/contact, 15KV/air protection
- > Dual redundant DC44-57V inputs, with reverse & over-voltage protection
- > Operation temperature from -40 to +75°C

# Specifications

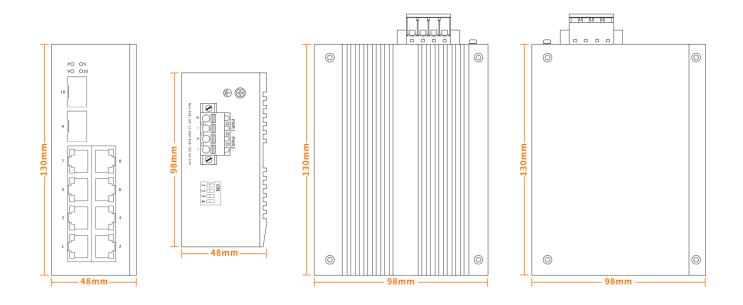

| Interface<br>Specifications | Fiber port:                 | 2 * 1000Base-X SFP                            |
|-----------------------------|-----------------------------|---|
| Specifications              | Copper port:                | 8 * 10/100/1000Base-T PoE (RJ45)              |
| Power                       | Input voltage:              | 44-57VDC, redundant inputs                    |
| Specifications              | input voltage.              |   |
| opeeniedelono               | Input current               | 5.6A max                                      |
|                             | Power consumption           | ≤ 7.5W without PoE (full load)                |
|                             |                             | $\leq$ 240W with PoE (full load)              |
|                             | Power interface             | 4-pin terminal block                          |
|                             | Reverse polarity protection | Supported                                     |
|                             | Over-voltage protection     | Supported                                     |
| LED Indicators              | 1 – PWR (Green)             | Power on indicator                            |
|                             | 2 – SYS (Red)               | PoE working status indicator                  |
|                             | 3 – LNK/ACT (Green)         | RJ45 port link up/down/act indicator per port |
|                             | 4 – SPEED (Yellow)          | RJ45 port speed indicator per port            |
|                             | 5 – LNK/ACT (Green)         | SFP port link up/down/act indicator per port  |
| DIP Switch                  | 1 – Port Isolation          | Port Isolation function on/off                |
|                             | 2 – 250m long-range         | Port 1-2 long-range 250m transmission on/off  |
|                             | 3 – QoS (1-2 ports)         | Port 1-2 QoS function on/off                  |
|                             | 4 – PoE watchdog            | Power over Ethernet watchdog on/off           |
| Switching features          | Switching capacity          | 20Gbps  |
|                             | Packet forwarding rate      | 29.7Mpps                                      |
|                             | MAC address table           | 16К   |
