52-port Layer 2+ Managed 10Gigabit **Ethernet Switch** 

Full Gigabit Ethernet Switch with 10Gbps fiber uplink interfaces

#### Overview

Teroline's TS-2048G-4XS is a Layer 2+ managed full Gigabit Ethernet Switch with 48 x 10/100/1000Base-T RJ45 ports and 4 x 1G/2.5G/10GbE SFP+ ports. It is featured with static L3 routing and full L2 features such as VLAN, QoS, IGMP, Port Mirroring, LLDP, security, G.8032 ERPS ring protection and IPv4/6 based network management.

TS-2048G-4XS is an ideal solution featured with wire-speed high-performance switching capability for small and medium enterprises as well as cost efficient L2/static-L3 WAN access application scenarios. Designed with a built-in wide-range AC power supply and standard 1RU 19-inch pizzabox, it's environment-friendly with a controllable fan for energy-saving and noise reduction. It supports various means of configuration and management, including CLI, secure web and standard SNMP, thus applicable for various SME L2 cost-efficient leased-line service access and Active Ethernet based FTTB/FTTC residential broadband access scenarios.
